

***The problem:***

***You're successful and appreciated. You've achieved a lot in your career.***

***And yet, you're overwhelmed, experiencing constant fatigue and burnout. A slew of varied priorities are thrown at you from various directions, and you never seem to have a minute of rest.***

***You're seeking ways to balance, restore yourself, to feel joy in life, to be in the moment.***

***"I believe art can be an answer to our need to integrate a work/life balance. It can start with well positioned pieces in your home."***

***Key Takeaways in the Presentation titled  
'Integrating Work/Life Balance Thru Art'***

Ms. Stelin is a passionate advocate for the power of art in our harried world.

Through speed painting and statistics Ms. Stelin helps people see the value of art in their residential and corporate spaces and gives concrete tips on placing art, ranging from proper installation practices to framing, to avenues for buying art, and growing art collections.

*Testimonials:*

I have participated in Diana's presentation about "Art in Your Home" and found it both engaging and helpful in thinking about how to select art for our house as well as how to position it in the best way possible. I would highly recommend her presentation for anyone interested in learning more about art collecting and making their home more unique through art.

*Katya Taycher, Managing Director, Product Management at Charles River Development, a State Street Company*

Diana is amazing both as an artist and as a teacher. We've never bought original art before and I had no idea of how to do this. What if you choose something that won't work in your house? What if you get tired of it? How high do you hang it? I've been in love with Diana's landscapes for years and when I finally asked her about buying a painting, she couldn't make the process any more comfortable and enjoyable. She had me come over to the studio to choose a few paintings that I liked. Then she brought them over to my house to see on my wall. This was incredibly helpful and made me change my mind about the painting that I went with. She helped me figure out exactly how to position the painting and told me that if we change our mind within a month, we could always try something different. We haven't changed our mind. We still love it.

This was incredibly helpful and made me change my mind about the painting that I went with. She helped me figure out exactly how to position the painting and told me that if we change our mind within a month, we could always try something different. We haven't changed our mind. We still love it.

*Helen Rennie, owner of Helen's Kitchen*

I am proud to say that after falling in love with Diana's work, last year I purchased my first piece of original art and it was one by Diana. Even though we live in different states, Diana made the process that I found intimidating super easy and risk free. She let me keep the painting I chose in my home for a while, try it in different rooms in my house, get Diana's professional opinion via photos I took at different times of day and different light. I could not love my final choice any more than I do.

I find Diana's paintings very romantic without being overly so. Looking at them makes my heart smile without overwhelming my pancreas and causing an insulin spike by feeling sugary sweet. I just look at them and exhale. Like everything is ok as long as beauty like this exists in this world

More Collectors' Installs and Quotes:

Her melted landscapes are truly magical, able to breathe vitality and energy into both private and corporate spaces. Ms. Stelin's pieces grace a number of private collections around the United States and have been featured at Novartis headquarters in Boston, Google headquarters, and at Childrens' Hospital. Here

is what some collectors say of her pieces, that draw inspiration from her travels around the globe:

*"They remind me of one the best vacations I had in Italy when I was young, naive and in love. It represents for me everything that youth does: the freedom of expression, spontaneity, naiveté, delicate awkwardness and colorful emotionality."*

*"I like that all shapes and subjects have soft blurry edges that don't dictate anything and can be interpreted one way or another."*

"Diana is a master of passionate, evocative color, texture and mood!"
